TO BUYERS.

I have been nearly three years in collecting this list of animals and each one has been selected with a view of getting the BEST TROTting BLOOD obtainable, and also the IDENTICAL BLOOD OF THE FASTEST TROTTERS.

Every Stallion and Brood Mare is sired by a horse who has representatives in the 2:30 list.

And every one has a grand sire, who has sired horses with a record of 2:30 or better.

They are immediate descendants of Hambletonian, Harry Clay and Pilot, Jr., and from the *greatest speed producing lines* in these families.

In my judgment the next 5 years will demonstrate that in the proper combination of the blood of these three great families, lies the secret of successful breeding of the trotting horse as is already partially demonstrated. All three of these families, although for a long time in disrepute, have worked their way to the front solely on merit. It was not many years since that Rysdyk's Hambletonian was standing at \$35, while Ethan Allen had all the mares he could cover at \$100.

The record today shows that Hambletonian has 32 representatives in the 2:30 list, while Ethan Allen has but 6, and 4 of these are out of mares sired by the sire of Rysdyk's Hambletonian (old Abdallah.)

The Hambletonian family has today nearly as many representatives in the 2:30 list as all other families combined.

The daughters of Rysdyk's Hambletonian have produced Trinket, 4 year old record 2:19 $\frac{3}{4}$; Gov. Sprague, 5-year old record 2:20 $\frac{1}{2}$; Amy 2:20 $\frac{1}{4}$; King Phillip, 2:21; Bateman, 2:22 $\frac{1}{4}$; Result, 2:25, Nellie, 2:27; Western New York, 2:29; and Ajax, 2:29.

IN REGARD TO HARRY CLAY.

Long use upon the turf and road kept him for years from stud duties. Mr. Corning kept the old horse almost exclusively for his own use.

Notwithstanding the very small number of his daughters, they have produced so many trotters of the highest order, that they have of late, been in great demand as brood mares, and are now bringing the highest prices. It is thought to be a fact that Harry Clay never covered a mare with any Hambletonian blood previous to three years ago. Harry Clay has a record of 2:29. He sired during his limited stud service, Lady Ross, 2:29 $\frac{3}{4}$; Surprise, 2:26; and his daughters have produced St. Julien, 2:12 $\frac{3}{4}$; Dick Swiveller, 2:18; Bodine, 2:19 $\frac{1}{4}$ Prospero, 2:20; Gazelle, 2:21; Dame Trot, 2:22; James Howell, Jr., 2:24; Elaine, 2:28 at 3 years old, and 2:24 $\frac{1}{4}$; at 4 years old. Hogarth, 2:26 at 4 years old, and Big Fellow, 2:26 $\frac{1}{4}$. There are probably scores of stallions in the country that have covered more mares before their 8 year old form than Harry Clay ever covered.

THE BLOOD OF PILOT, JR.

has perhaps been even more unpopular than that of Harry Clay.

The first Mr. Alexander was about the only gentleman in Kentucky or elsewhere who had any faith in the blood of Pilot, Jr.

The present Mr. Alexander believed so little in it that after his brother's death, nearly all the Pilot, Jr. stallions and mares were sold from Woodburn. Like Harry Clay, although laboring under the greatest disadvantages, the blood of this great horse has worked its way to the front rank.

Time has shown that a great majority of the 2:30 trotters bred at Woodburn or whose sires or dams have been owned there, contain the blood of Pilot, Jr., among which are:—

Dacia,	2:29½	Hylas,	2:24½
Mambrino Gift,	2:20	Billy Hoskins,	2:26½
Scotland,	2:22½	Neontide,	2:24
Geo. A. Ayer,	2:30	Relf's Mambrino Pilot, saddle	2:27½
Lady Kelso,	2:29	Roscoe,	2:30
Indianapolis,	2:21	Voltaire,	2:21
John Morgan,	2:24	Pilot Temple,	2:24½
Nutwood,	2:18¾	Tattler,	2:26
Maud S., (trial.)	2:17½		

All of the stallions bred at Woodburn Farm with records of 2:21 or better are out of Pilot, Jr., mares or sired by a son of Pilot, Jr.

DESCRIPTION

OF

STOCK

To Be Sold.

No. 1.

RICHWOOD.

Bay s. stripe in face, black points, stands 15—2 foaled May 27, 1872.
Bred by Wm. M. Rysdyk, Orange Co., N. Y.

By RYSDYK'S HAMBLETONIAN, d. Hoe Mare.

RYSDYK'S HAMBLETONIAN, by Abdallah, d. Charles Kent Mare,
by imp. BELLFOUNDER, g. d. One Eye by Bishop's Hambletonian, g.g.
d. Silver Tail by imp. MESSENGER.

ABDALLAH, by Mambrino, d. Amazonia, by son of imp. MESSENGER.
Bishop's Hambletonian by imp. MESSENGER, d. Pheasant, by imp.
Shark, g. d. by imp. Medley. Mambrino, by imp. MESSENGER, d. by
imp Sour Crout.

HOE MARE, by Wilson's Sir Henry, son of Henry by Sir Archy, son
of imp DIOMED, g. d. by Crocker's Eclipse, grandson of imp. MESSEN-
GER, g. g. d. by Red Bird, son of Bishop's Hambletonian, son of imp
Messenger.

RICHWOOD is one of old Hambletonian's very best and most *blood-
like* sons. He has always been known as the "Short Neck" (from an
injury received when foaled.) His get have long and most finely formed
necks and heads, graceful carriage, and most "thoroughbred" look of
the get, of any son of Hambletonian. We think he can show a mile
low down in the twenties.

No. 2. SHAWMUT.

br. b. c. foaled June 20, 1877. Sire, Harry Clay, son of Neave's Cassius M. Clay, Jr., son of old Cassius M. Clay; dam Heroine (full sister to Volunteer) by Rysdyk's Hambletonian; g. dam by Lady Patriot by young Patriot; g. g. d. the Lewis Hulse mare.

Bred by Edwin Thorne, Thorndale, N. Y.

SHAWMUT is very large and fine. He is a colt of wonderful substance. He is marked like his sire except that he has no blaze in the face.

His conformation partakes of both sire and dam. His head, neck and back resemble the Volunteer family, while in his limbs and powerful hind-quarters is a counterpart of his sire.

He has been harnessed less than 30 times but enough to show that his gait is perfection.

He has a long sweeping stride, gathers quickly, goes perfectly clean, and barring accidents, will undoubtedly make one of the fastest.

I think gentlemen will say when they come to see him that he is not only the best bred Clay stallion living, but one of the best individuals of his age of any blood.

What other stallion can boast of a sire that has sired the dams of more 2:30 horses than any living horse, and a dam whose sire has 32 representatives in the 2:30 list, and one full brother (Volunteer) with 19 more, and another full brother (Sentinel) with 7 more. HEROINE herself was the most elegant mare I ever saw, fully 16 hands.

In breeding SHAWMUT is without a peer. HEROINE is dead, therefore no other can be produced like him.

Of the 27 horses with records of 2:19 or better, 16 of them are either Hambletonian's or Clay's or both.

For *Get* of HARRY CLAY, of RYSDYK'S HAMBLETONIAN, see page 4, of VOLUNTEER, see page 11.

No. 3. MIDNIGHT.

(Dam of Noontide, 4 year old record 2:26 in a 5th heat in a large field of horses. 5 year old record 2:24 and trial in 2:21.)

gr. m. 15-2 hands, foaled 1865. Sired by Pilot, Jr., son of Old Pilot, dam by Lexington, 2d dam by imp. Glencoe, 3d dam by Wagner, &c. Bred by A. J. Alexander, Woodburn Farm, Ky.

MIDNIGHT is a very handsome, long rangy mare of great substance, Noontide is the only one of her foals that has been trained.

Dawn, her oldest filly is doing duty in the celebrated stud of Mr. Veech of Kentucky.

MIDNIGHT and the dam of Maud S., (four year old trial 2:17½) are bred almost identically, both being by Pilot, Jr., the latter's dam being sired by Boston, while Boston's son Lexington, sired Midnight's dam.

No. 4.

DAYBREAK.

[Full sister to Noontide.]

gr. f. foaled 1876. Got by Harold, son of Rysdyk's Hambletonian, dam, Midnight. See No. 3. Bred by A. J. Alexander, Woodburn farm, Ky.

DAYBREAK is of good size, powerfully built, and very elegant in her conformation. She promises to be as fast as Noontide.

Copy of written statement given me by Mr. Quay when I bought her.

Dr. H. Y. Simpson,

Worcester, Mass.,

Dear Sir:

The filly, Daybreak, sold you this day has been handled in a Break Cart for about two months, and has not been hooked to a sulky a half dozen times in her life. Was never started up but once when she went to the Quarter Pole in 42 seconds.

Yours Truly,

J. A. Quay.

DAYBREAK has been driven six weeks, since in my possession.

Harold had but 48 foals previous to 1874 and many of them were never trained, many of the fillies being used for breeding, but notwithstanding this, 13 out of the 48 have shown speed as follows:—

Maud S., public trial, 2:17¼ at 4 years old, and sold for \$21,000. Noontide, 5 year old record 2:24; McCurdy's Hambletonian, 5 year old record, 2:26½; Macianna, record 2:27½; Hermes, record 2:36½; Good Morning, record 2:28½; Childe Harold, 2 mile record 5:05—5:04—5:11, (and now so fast that he is barred from trotting races in England) Cygnet, 5 year old, trial 2:22¼; Haroldine, 3 year old trial, (in foal) 2:39½ R. H. Young's b. f. 3 year old, trial 2:38; Consuella, trial, 2:34¼ and W. H. Savage colt, trial 2:45.

No. 5.

WATERSPRITE.

b. f. foaled 1877.

Got by Belmont, son of Alexander's Abdallah (sire of Goldsmith

Maid) son of Rysdyk's Hambletonian. Dam Waterwitch by Pilot, Jr. 2d dam by Kinkead's St. Lawrence, 3d dam Brenda. Bred by A. J. Alexander, Woodburn Farm, Kentucky.

WATERSPRITE is a large, elegant filly with great promise of speed starts off on a pace and then breaks into a square trot.

Belmont sired Nutwood, record 2:18 $\frac{3}{4}$; Nil Desperandum, record 2:24; Dick Moore, record 2:24; Wedgewood, record 2:23; Lady Kelso, record, 2:29.

Waterwitch is the dam of Mambrino Gift, record 2:20; Scotland, (sired by a thoroughbred) record 2:22 $\frac{1}{2}$; Diadem, owned by Edwin Thorne, who writes me that he sent her to Budd Doble, on May 15, 1876 to be trained. June 27, 1876, Doble gave her a trial and she was timed by Mr. Thorne, $\frac{1}{4}$ -37- $\frac{1}{2}$ -1-14- $\frac{3}{4}$ -1:52 mile, 2:30 $\frac{1}{2}$. Very soon she met with an accident and was bred. She died in foaling.

Undine, owned by James Berger, Cincinnati, O., showed a 2:30 clip while breaking.

Fairy Bell, (full sister of Watersprite) produced Gift, who showed Mr. Bush (his owner) last season as a 3 year old, a trial over a $\frac{1}{2}$ mile track in 2:29 $\frac{1}{2}$.

No. 6. ALACRITY.

[Full sister to Cygnet, 5 year old trial, 2:22 $\frac{1}{4}$.]

ch. f. foaled 1877. Got by Harold, son of Rysdyk's Hambletonian Dam Juliet, by Pilot, Jr. 2d dam, by Webster, 3d dam by Whip, Bred by A. J. Alexander, Woodburn Farm, Kentucky.

ALACRITY is a large, rangy filly, very powerfully built. Is very promising.

For Harold, see No. 4.

Juliet is the dam of Relf's Mambrino Pilot, the sire of Mambrino Gift, record 2:20. Hannis, record 2:19 $\frac{1}{4}$, also of Cygnet, trial at 5 years old in 2:22 $\frac{1}{4}$.

No. 7. CAMPTOWN.

(Dam of EGBERT, that sold at J. H. Walker's sale as a 2-year-old, for \$3,425.00, and pronounced by J. H. Wallace, Esq., to be the best bred trotting stallion in Kentucky. See March number of Wallace's Monthly of 1880, page 128.)

br. b. m., 15-3 hands, white near hind ankle and off hind coronet.; foaled May 7, 1871.

By Messenger Duroc, son of Rysdyk's Hambletonian; d. Miss Mc Loud by the Holbert colt, g. d., Mayfly by the Utter horse, g. g. d. Virgo (full sister to Satinet, dam of Messenger Duroc) by Roe's Abdallah chief, Holbert colt, pacer, by Rysdyk's Hambletonian.

Utter Horse by Hoyt's Comet; d. by Meyer's Highlander. Hoyt's Comet by Finn's Messenger; d. by Sir Archy Duroc, by Duroc, by imp. DIOMED, Finn's Messenger by Nester; d. by Mulford.

Nester by imp. MESSENGER; d. by imp. Eclipse, son of O'Kelley's Eclipse, Meyer's Highlander by Dicker's Highlander; Dicker's Highlander by Allen's Highlander (thoroughbred), son of imp. Brown Highlander; d. by Bolivar. Bred by Daniel R. Feagles, (the breeder of Backman's Messenger Duroc,) Orange Co., N. Y.

CAMPTOWN was sent to be bred to Rysdyk's Hambletonian the spring she was 3 years old. She was worked to harness sufficiently, however, before going to Orange county, to show that she was a remarkably powerful going filly and very stylish and fast. She is quite as high behind as at her withers, with very prominent and wide loins, well coupled on to powerful quarters. (See Wallace's Monthly, Sept. 1877, page 679). Two of Camptown's foals are in the sale.

Among the get of MESSENGER DUROC are the following animals that have won purses at *three years old*; Elaine, 2:28; Prospero, 2:33½; Reform, 2:35¾; Dame Trot, 2:40; Areal, 2:40; Meranda, 2:42½; Hogarth, 2:43; Helen Russell, 2:44¾; Maclure, 2:45; Oberon, 2:47; Startling, Gleneida, Emma, Francis, &c., &c.

Prospero's record now is 2:20; Dame Trot, 2:22; Elaine 2:28 at 3 years old and 2:24¼ at four years old, and Hogarth 2:26 at 4 years old.

No. 8.

BARCENA.

b. m. foaled 1871. Got by Bayard, son of Pilot, Jr.; dam Blandina by Mambrino chief, 2d dam Burch mare by Pilot, Jr. Bred by A. J. Alexander, Woodburn farm, Kentucky.

BARCENA stands 15-2 and is a very strong built mare. She showed speed enough before having tendon of hind leg cut, to warrant the statement that she was as fast as any animal ever bred on Woodburn Farm. In foal to Richwood.

Bayard has shown himself able to trot in 2:20. He is the sire of the young mare, Emma B., that was so successful in her races last season, gaining a record of 2:22.

Blandina produced the stallions, Abdallah Pilot and Swigert, both having representatives in the 2:30 list. Red Jim, with a 3 year old

record of 2:28 is by the former. The Burch mare is the dam of Rosalind, record 2.21 $\frac{3}{4}$.

BERTHA is a very compact mare with heavy quarters, stands 15 hands and is a natural trotter. Has been used considerably for a road mare; and is a perfect gentleman's driver. In foal to Richwood.

LADY SEARS was one of the best and fastest mares used on the road in the vicinity of New York City, till she was bred to Sweepstakes in 1874 and to Wilkins Macawber in 1875. One of these foals met with an accident; the other is very fast. The smaller of the two stands 15.2; Since weaning the last foal, she has been used as a road mare.

Bred by T. J. Montague, Lexington, Ky.

CORONET stands 15-1, has great substance, and is very handsome. She has been driven but little, but shows a wonderful amount of speed for the handling. If trained would undoubtedly be one of the fastest of Almont's get.

STRABO stands 15-1 and has the trotting points to a remarkable degree.

She has been harnessed less than twenty times. Is gaited right to go fast.

No. 14.

I think a gentleman might visit all the breeding farms in the country, and not find a more elegantly finished colt or a better gaited one than Boz. He is very large, now standing 15-2 hands. Has been harnessed about 30 times, and is already a trotter.

No. 15.

of Rysdyk's Hambletonian. 2d dam Virgo (full sister to Messenger Duroc's dam). Bred by J. H. Walker, Worcester, Mass.

Vivian as a yearling had distemper of the severest kind, and for a long time did not know whether she would live or die. She has just come from Concord, N. H., with nine others, where she has been for six weeks for the purpose of being broken. She was again taken sick there and was only harnessed a few times before getting her home. She is low in flesh, but she has a conformation, gait and nerve that must carry her very fast.
